

The Faith Leaders and Leaders of Conscience of Eastern Washington and North Idaho invites you to

Save the Date

Sunday, October 6, 2019 from 3:00-5:00pm

“A Vigil for the Healing of the Earth”

Cataldo Mission, Coeur d’Alene’s Old Mission State Park

Exit 39 off I-90

Plan to attend, because:

Thousands of us have voiced opposition to the toxic waste site at the Old Mission at Cataldo. You may have heard about the unnecessary tragedy of it. If you are concerned, this is a chance to add your voice!

You can help make a difference. Many families, parents, concerned citizens of the Bunker Hill Superfund site support using a portion of the \$800,000,000 in settlement funds to establish a Community Lead Health Clinic/Center. The Silver Valley Community Resource Center has been asking for this as reparation and assistance for the generations of families living with lead health conditions.

JOIN with Faith Leaders, Tribal, families, support groups, elected officials for protection of the future of our children, our community, economic development, healing of the earth. Let our voices be heard!
